

Shooting Class Defined

Sporter Rifle Class – Bolt Action Rifles

Any unmodified factory rifle having its original barrel, stock and trigger, chambered for the .22 LR cartridge meeting the following criteria is permitted.

No barrel attachments - No benchrest adapters

No limit on scope magnification

Exclusions: 1] Factory triggers may be modified but not replaced 2] Factory barrels may be set back, and/or re-crowned, but must retain visible factory markings 3] Original factory stocks may be action glass bedded. 4] Barrels may be free floated 5] Sling swivel studs may be removed

Unmodified factory rifle and scope without or with exclusion(s) shall not weigh more than 8-1/2 pounds.

Bi-Pods when attached, must be included in the overall weight of 8-1/2 pounds.

No limit on scope magnification – No barrel attachments – No Benchrest adapters

Two piece (front/rear) rests or Bi-Pod are used in this class - Front and rear rests may be adjustable for elevation and windage – Two piece rests shall not be attached.

Rests or Bi-Pod may be placed upon a shooting bench but not attached.

Limited production Sporter rifles such as (but not limited to) Gorman, Kelbly, Stiller, Voodoo, Remington 547's, Cooper and Anschutz custom shop offerings, that use aftermarket barrels such as Shilen, Lija, Shaw, Kieger, Wilson etc., will shoot in the *Unlimited Rifle Class*.
